SF-424A & Budget Worksheet Mapping

Where do the amounts on Budget Worksheet populate from?

- When new and amendment applications are submitted electronically from Grants.gov or from the GrantSolutions Grants Management Services (Grantor or Recipient submissions), the Activity name and amounts entered (not uploaded) on the SF-424A are automatically transferred into the Budget Worksheet.
 - The system transfer saves time with data entry and helps to reduce the likelihood of errors associated with manually entering data into the Budget Worksheet.
- Each activity entered in Section A of the SF-424A becomes a Budget Worksheet Tab. Therefore, if more than one activity row on the SF-424A contains data, you will see multiple tabs on a Budget Worksheet.
- The amounts entered in Section B of the SF-424A will transfer to the *Direct Cost* section of the Budget Worksheet and these values will display as “read-only” in the *Requested* column in the corresponding SF-424A budget category row.

Non-Federal Section

- When an applicant enters non-federal amounts in the *Non-Federal* section of the SF-424A, those amounts transfer to the *Non-Federal* section of the Budget Worksheet. The Grantor also has the option to manually enter values in the *Non-Federal* section if they want to track or record the Recipient contribution.
- The non-federal amounts must be entered into the *Applicant*, *State*, *Other*, and *Program Income* columns when non-federal funds are entered into the *Non-Federal* section. The Grantor can decide whether to include program income in the *Total Non-Federal* amount by using the radio buttons.
